1. Purpose. This regulation describes JMC office symbol construction and the method used to request, issue, and change office symbols, cost centers, and office titles.

2. Responsibilities.

a. The Resource Management Directorate (AMSJM-RMM) will:

(1) Assign office symbols to HQ JMC elements and make additions, deletions, or changes thereto. AMSJM-RMM will not reassign previously used office symbols for 2 years.

(2) Assign basic office symbols to JMC subordinate installations.

(3) Assign office symbols only to officially established organizational elements. They may add an additional letter to the organizational symbol when:

(a) Organizational element resides in more than one building/location.

(b) Temporary major project requires organizational element to regroup.

(4) Maintain a listing of all HQ JMC Directorates/Offices and JMC installation/activity office symbols.

b. Heads of HQ JMC elements will:

(1) Forward a memorandum to AMSJM-RMM requesting additions, deletions or changes in their organization's titles, cost centers, or office symbols. All memorandums requesting changes in an organization require the following action:

(a) CHANGE THE MISSION AND FUNCTION STATEMENTS IN THE JMCR 10-1 AND THE TABLE OF DISTRIBUTION AND ALLOWANCES (TDA): AMSJM-RMM must approve any new, changed and/or deleted mission and function statements and TDA paragraphs. This includes notification of an organizational title change where the mission

and function statement does not change. Requests must include a copy of the current and proposed 10-1 statement, current and proposed 10-1 statement, current and proposed TDA with audit trail, and justification for requested change.

(b) CHANGE IN COST CENTER: AMSJM-RMM approves the change and issues new, changes and/or deletes the cost center code.

(c) CHANGE IN OFFICE SYMBOL: AMSJM-RMM controls and assigns official office symbols and cost center codes (cost centers will match office symbols). After an approved reorganization/office addition, the requester will receive a memorandum citing the official office symbol and cost center code assigned and the effective date of the change. AMSJM-RMM will notify all HQ elements of changes in office symbols via e-mail.

3. Policies.

a. JMC office symbols contain a maximum number of nine letters. Place hyphens between the fifth and sixth and the eighth and ninth letters (See Appendix A). The following describes the composition of the symbols:

(1) The first five letters represent the basic symbol as illustrated in Appendix A.

(2) The sixth and seventh letters represent a directorate, office, comparable element or the first next lower organizational element.

(3) The eighth letter represents a team, division, comparable element or the next lower organizational element. It may also represent officials in the Command Group, when three letters are required.

(4) The ninth letter represents team divisions, a branch, a comparable element or the next lower organizational element.

b. Installations may assign office symbols through division level, if required; all other JMC installations will identify elements by assigning symbols through division level, at a minimum. JMCR 10-1, JMC Mission and Major Functions, as well as

the TDA, determine appropriate levels for assignment of office symbols. JMC installations consisting of less than four officially designated organizational elements are exempt from this requirement.

c. Subordinate Commanders will keep correspondents informed of address (office symbol) changes by forwarding a copy of the current office symbol listing to AMSJM-RMM.

d. The letter "x" will be limited to the executive personnel of the HQ JMC Command Group and at the subordinate installations, and placed in the sixth/seventh position.
